# Roadway Drainage

## Workshop Description

This workshop reviews the importance of good drainage and includes discussions of water and its effect on roads, problems caused by improper drainage and some of the ways to solve these problems. Also, the workshop presents types of drainage structures and their uses, materials, installation, maintenance considerations, and pipe sizing.

## Roads Scholar Program

“Roadway Drainage” is part of the Roads Scholar Program.

## Continuing Education Units

If you are interested in receiving Continuing Education Units, there is an additional charge of \$10.00. Please mark the appropriate box on the registration form.

## Instructor

Mike Blankenship is the Program Manager of the West Virginia T2 Center at West Virginia University. He has held this position for 11 years. Prior to this he worked five years for Bellomo-McGee, Inc., a traffic engineering consulting firm in Vienna, Virginia. Mike has his Bachelors and Masters degrees in Civil Engineering from West Virginia University. He is a registered Professional Engineer in West Virginia and Virginia, and is a member of the Institute of Transportation Engineers, the American Public Works Association, and the National Association of County Engineers. His professional areas of interest are traffic safety, traffic engineering, and highway maintenance.
