Snow and Ice Control

Workshop Description

Come and fine tune your snow and ice knowledge at the operational review and technical peer exchange workshop on Snow & Ice Control. The objectives of the day are to:

- ✓ Describe the environmental impacts of salt from winter operations.
- ✓ Describe anti-icing & discuss its benefits.
- ✓ Explain the benefits of spreader calibration.
- ✓ Explain weather maps.

Properly managing winter operations is crucial to your successful career. Don't miss this opportunity to learn and review.

Roads Scholar Program

The "Snow and Ice Control" workshop is part of the Roads Scholar Program.

Instructor

Paul Brown is the Director of Snow and Ice Operations for the Massachusetts Highway Department. Paul is an expert in anti-icing techniques and the cost effective use of chemicals.

Who Should Attend?

Municipal employees, including supervisors and foremen responsible for storm operations.
